Rashi Saxena

UX Lead | Enterprise and Agentic AI Product Design

Hyderabad, India | rashis717@gmail.com | +91 8840295743 | linkedin.com/in/rashi-saxena-2k2710 | **Rashi Portfolio**

PROFESSIONAL SUMMARY

UX Lead with 4+ years of professional experience, 3+ in product and UX design, specialising in enterprise B2B AI platforms. Leads UX for interconnected agent-management, meeting-intelligence and market-intelligence products at Covasant, working directly with enterprise customers to formalise requirements and PoCs and guiding a team of junior designers. Defines agent experience (AX) patterns, human-in-the-loop controls and capability-based access models, and maintains the design system and AI-readable documentation that developers and AI coding agents build from. Platforms are live with enterprise customers, including 100+ sales teams at MYK and 50+ teams at Motilal Oswal Financial Services. Also owned the entire product design and brand of infraBOT, now on the IBM Partner Plus directory.

CORE COMPETENCIES

Product Strategy and UX Leadership: requirements and PoC definition, customer workshops and brainstorming, design reviews, mentoring, cross-functional delivery

Enterprise UX and Platform Design: information architecture, workflow design, role-based dashboards, governance and admin consoles, approval and lifecycle flows

AI and Agentic UX: agent experience (AX), human-in-the-loop design, agent observability and evaluation UX, conversational and no-code agent builders, A2UI

Design Systems: design tokens, component architecture, Figma libraries, Storybook documentation, AI-readable design documentation

Prototyping and Design-to-Development: interactive prototypes, HTML and React handoff, AI-assisted design workflows with standardised MD files and skills

PROFESSIONAL EXPERIENCE

Covasant Technologies — Hyderabad, India | Jul 2025 – Present

Senior UX Engineer (UX Lead, Enterprise AI Platforms) — Jul 2026 – Present

UX Engineer — Jul 2025 – Jul 2026

Lead UX across Covasant's interconnected enterprise B2B AI platform suite: agent management, meeting intelligence and market intelligence.

- Led UX for an AI agent management suite spanning agent building, registry, deployment, observability and evaluation; designed the agent lifecycle and approval-gated promotion across Dev, Staging, UAT and Production; successfully deployed with Motilal Oswal Financial Services, where 50+ teams consume it
- Delivered Agent Registry, run per tenant by forward-deployed engineers and live with Zebra for 2 customers, with usage planned to expand; designed to scale across tenants (deployment plans, tenant onboarding, version history, approvals)
- Replaced CRUD permission matrices with a capability-based access model of eight role packs; mapped 13 roles and 87+ features across four modules into navigation and UX-governance principles
- Designed agent observability, including a DAG-based trace graph for branching runs benchmarked against Grafana Tempo, Jaeger, Datadog and Langfuse; redesigned agent evaluation around multi-turn scenarios with weighted, auditable scoring
- Led UX for SalesPulze and MarketPulze (field and market intelligence): defined the information architecture for a unified shell with role-based dashboards across a five-level sales hierarchy, evidence-linked AI insights and human review; SalesPulze used by 100+ sales teams at MYK and deployed with other companies; worked directly with MYK on MarketPulze
- Defined AX practice across platforms: transparent agent actions, adjustable autonomy, human-in-the-loop checkpoints, graceful error recovery and audit trails; mapped EU AI Act transparency obligations to platform modules and designed a human-confirmed risk-labelling model
- Developed and documented the Covasant design system (Figma, Untitled UI, shadcn/ui, Storybook) with versioned, AI-readable documentation
- Defined an AI-assisted design workflow that standardises Markdown (MD) files and skills for design and UX audits and consistent design production
- Shaped the A2UI concept so agents render interactive components in the platform instead of plain text; defined the component behaviour schema and how the interface adapts across scenarios and interfaces, including where an agent is called from
- Facilitate requirement and brainstorming sessions with customers to formalise PoCs; guide junior designers through design reviews and onboarding; hand off through HTML and React prototypes

CitiusCloud Services Remote | Jan 2026 – Apr 2026

UX Consultant, infraBOT

infraBOT is CitiusCloud's autonomous automation-as-a-service platform for infrastructure operations, now live on the IBM Partner Plus directory through CitiusCloud's IBM Silver Partner status.

- Owned the entire product design, end to end: UX and UI across Day 1 provisioning and Day 2 operations such as hardening, patching and compliance
- Defined the complete information architecture: self-service request catalogue, no-code form and workflow builders, execution reports and dashboards, and governance through roles and tenants
- Created infraBOT's complete brand and visual identity

ContexIQ Remote | Jul 2024 – Jul 2025

Product Designer

- Led end-to-end design of ContexIQ's GenAI products: genIQ (no-code agent builder), Investment Agent (financial analytics assistant for Avendus) and SQL Agent (plant-level conversational analytics for Godrej)
- Converted prospective leads through genIQ demos and chatbot creation, resulting in two successfully delivered customer projects (Avendus and Godrej)
- Designed genIQ onboarding and task-automation flows; developed MVPs on limited datasets across multiple use cases
- Delivered tailored design systems for each agent, streamlining insight delivery and decision support
- Owned ContexIQ's visual identity and branding across web, product UI, marketing assets and VC pitch decks
- Partnered with founders, developers and researchers to translate GenAI capabilities into clear UX flows and faster feature rollouts

Quantum Leap Studio Pvt. Ltd. New Delhi, India | Nov 2023 – Aug 2024

Visual Designer

- Served as creative consultant to the Department of Commerce (Ministry of Commerce and Industries, Govt. of India) and design consultant to Bhubaneswar Development Authority
- Designed and developed websites for AMA BHOOMI (BDA initiative) and HCIM; established brand identity and guidelines for OMFED
- Delivered campaigns and presentations for PM Garib Kalyan Yojana, Aatmnirbhar Bharat, EV Buses and Ekamra Utsav, collaborating with urban planners, architects and writers

Mitocon Biomed Mumbai, India (Remote) | Feb 2023 – Nov 2023

Design Manager

- Led digital design, web design and creative strategy for campaigns and exhibitions, strengthening brand visibility and engagement
- Managed website development and content for digital platforms, improving user experience and traffic
- Led brand identity and customer-facing marketing that helped onboard APTOS, a high-value client; brand assets improved online traction by 52%

Triburg Gurugram, India | Jan 2022 – Dec 2022

Product Development and Merchandising (Apr – Dec 2022); Buying and Merchandising Intern (Jan – Apr 2022)

- Managed pre-production and product development across multiple vendors for American Eagle Outfitters, Aerie, Reitmans and Penningtons
- Supported onboarding of Reitmans and Penningtons through customised product lines; coordinated tech pack execution and production handoff

SKILLS AND TOOLS

Design and Prototyping (hands-on): Figma, FigJam, Miro, Adobe XD, InVision, Webflow, Framer

Design Systems (hands-on): design tokens, Figma component libraries, Untitled UI, shadcn/ui, Storybook, DESIGN.md and CLAUDE.md documentation

AI-Assisted Workflows (hands-on): Claude Code, Claude Design, Google Antigravity

Front-end and Handoff (working knowledge): React, TypeScript, Vite, Tailwind CSS, HTML and CSS, GitHub

Collaboration and Visual (hands-on): Jira, Notion, Microsoft Office; Adobe Photoshop, Illustrator, InDesign

EDUCATION

National Institute of Fashion Technology (NIFT) Jul 2018 – Jul 2022

Bachelor's degree, Fashion Technology | Grade: 8.5

Chief Editor, college annual magazine; Literary Club; Film Society Bhubaneswar

CERTIFICATIONS

- AI for Designers, UX Design for Virtual Reality, Human-Computer Interaction and Accessibility Design (Interaction Design Foundation); Adobe XD UI/UX Design (Udemy)
